ABOUT UCONN ENGINEERING
UConn Engineering excels in education, research, and professional service. We are the primary source of engineering leadership and talent in Connecticut. Our students, faculty, and laboratory infrastructure support the technological activity needed to strengthen our economy. We proudly use our capabilities to improve our state, the nation, and the world.

NEW MASTER OF ENGINEERING CONCENTRATIONS

The UConn College of Engineering is partnering with Anglo Educational Services (AES) to provide the Master of Engineering (MENG) in Data Science or Advanced Systems Engineering degrees for students across the world. Students will have the opportunity to study and intern in London and will follow the courses drawn from UConn’s curriculum Master of Engineering with a concentration in Data Science or Advanced Systems Engineering.

Customized Programs based on Faculty Expertise
Our research programs promote economic development through collaboration with our industry partners, provide valuable hands-on experiences for our students, and facilitate engagement with government labs and agencies. Every year, our faculty members bring in millions of research dollars to advance our nation's technological capabilities in a variety of sectors. These efforts help maintain UConn's status as one of the top public research institutions in the country.
